

## InvestorBridge 3.0 Released

**Friday, September 3, 2010** – Backstop Solutions Group (BSG), a leading provider of Software-as-a-Service (SaaS) for the alternative asset management industry, is delighted to announce the unveiling of InvestorBridge 3.0, the latest version of our investor reporting and web site hosting platform. The InvestorBridge engineers have been working tirelessly to find new ways to enhance the user experience and in this latest version they have delivered.

- The user interface for Admin Tools has been completely revamped, making it easier to navigate and more consistent with the user interface of our award-winning Backstop platform.
- Investors can now export data tables from the public site to Excel making the sharing and organizing of information simple.
- New links have been added so that administrators can easily view recent history for importing and publishing site updates.
- The regional time display can now be customized to your time-zone, making the retrieval of information painless.

If you're interested in learning more about the InvestorBridge platform contact a Backstop Sales Representative to schedule a demo at [info@backstopsolutions.com](mailto:info@backstopsolutions.com) or +1 877 259-0990.
